TASKI®

Jonmaster Compact Wiper

Compact wiper system for daily cleaning

Key features

- Large area coverage
- Fast set up
- Easy handling

Advantages

- Reduction in laundry costs
- Improved productivity
- Excellent cleaning performance

Description

From the leading expert in superior and sustainable performance the TASKI Jonmaster Compact System has been designed to provide a new solution for daily cleaning in congested areas.

Thanks to the combination of microfibre and the sharp squeegee blade the TASKI Jonmaster Compact Wiper significantly improves the cleaning results whilst increasing the levels of hygiene.

Due to the high square metre coverage laundry costs can be significantly reduced whilst the fast set up and the easy handling improves productivity.

Used in combination with superior Diversey chemicals and high quality microfibre, the TASKI Jonmaster Compact Wiper is an ideal system for small area cleaning.

Application

When using the TASKI Jonmaster Compact Wiper Cloth, fine fibres create a capillary effect within the mop that collects and removes dirt, grease and dust particles from the surface – removing the need for a second drying pass. For these particles to be removed completely the mop needs to be well-rinsed and laundered.

Caring for your wiper cloth

- Always pre-wash or rinse the mop without detergent
- Do not launder together with other textiles
- Do not use any bleach, softener or highly alkaline laundry product
- TASKI Jonmaster Compact Wiper Cloth can be washed more than 500 times at 90 °C (drying at a maximum temperature of 55 °C)
